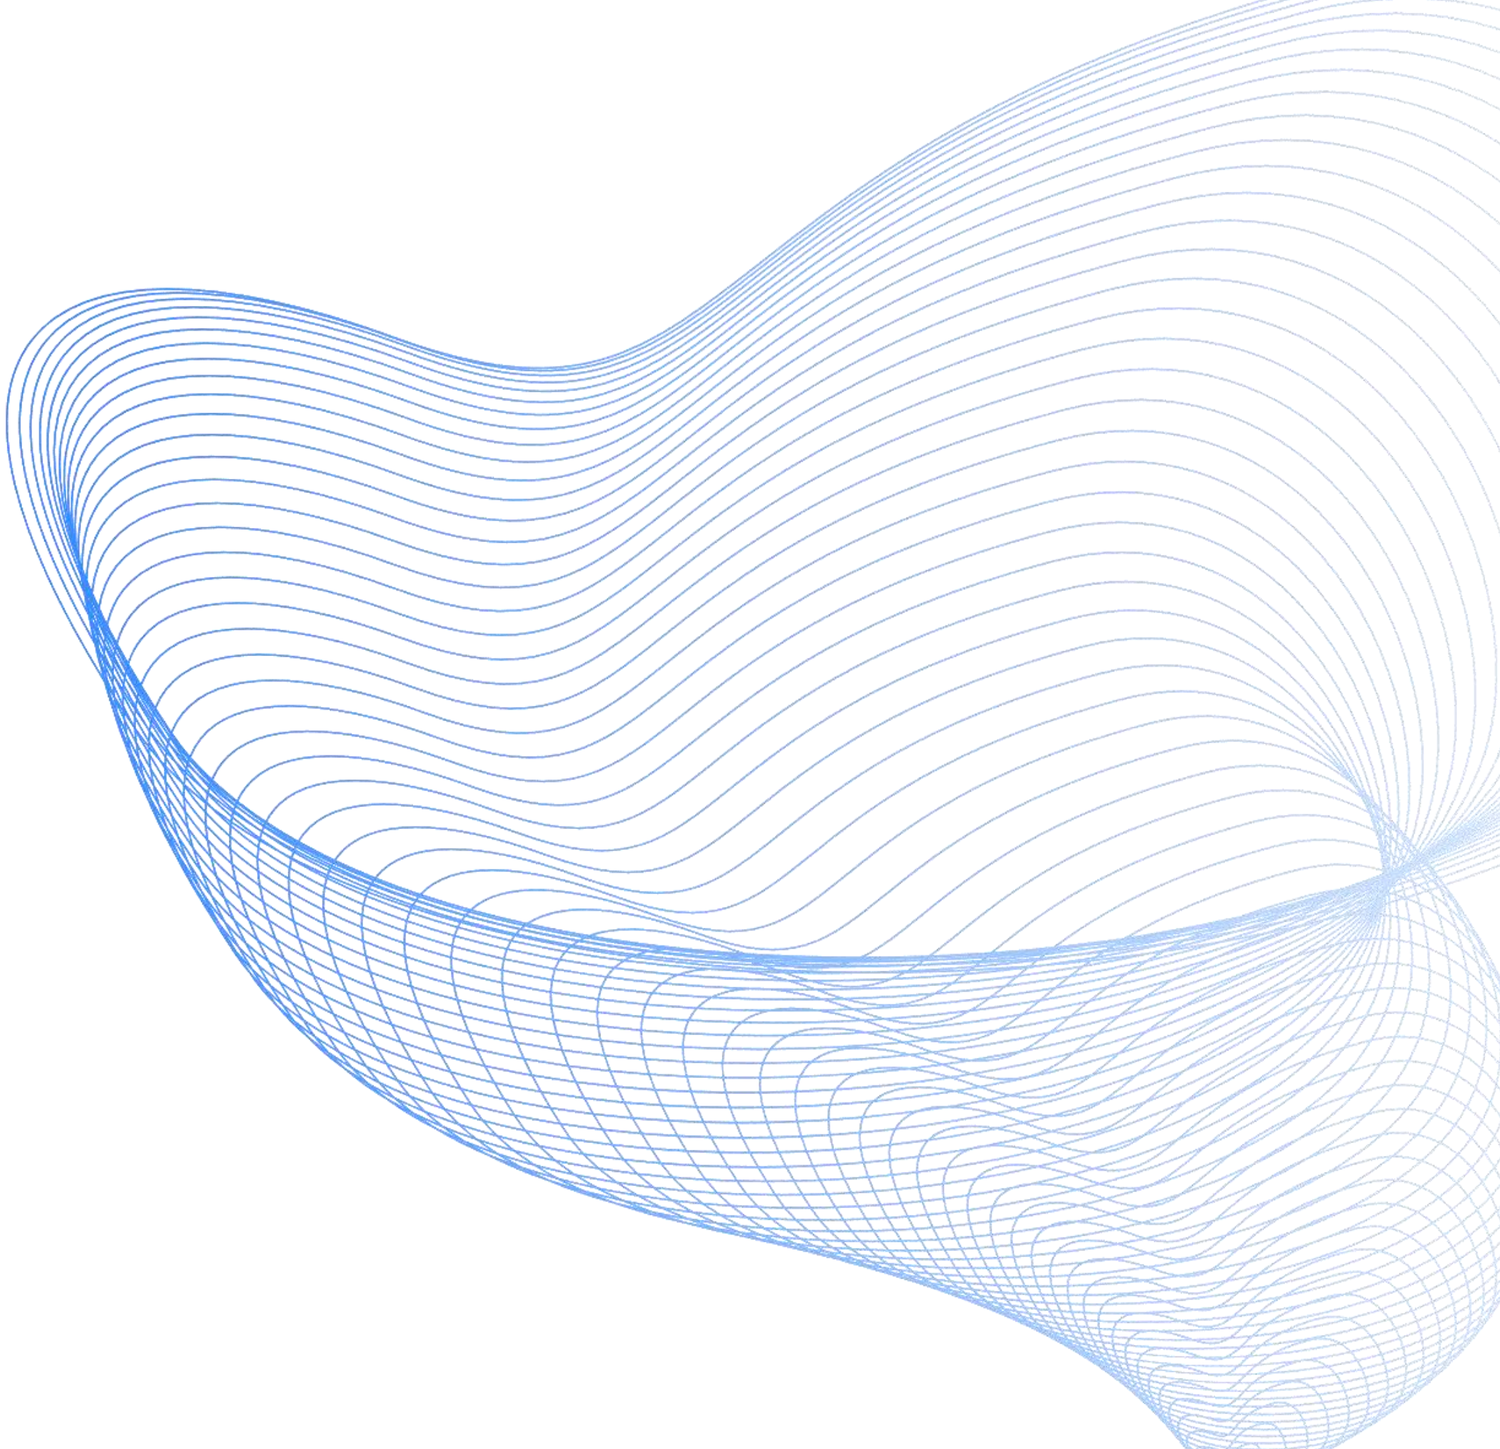
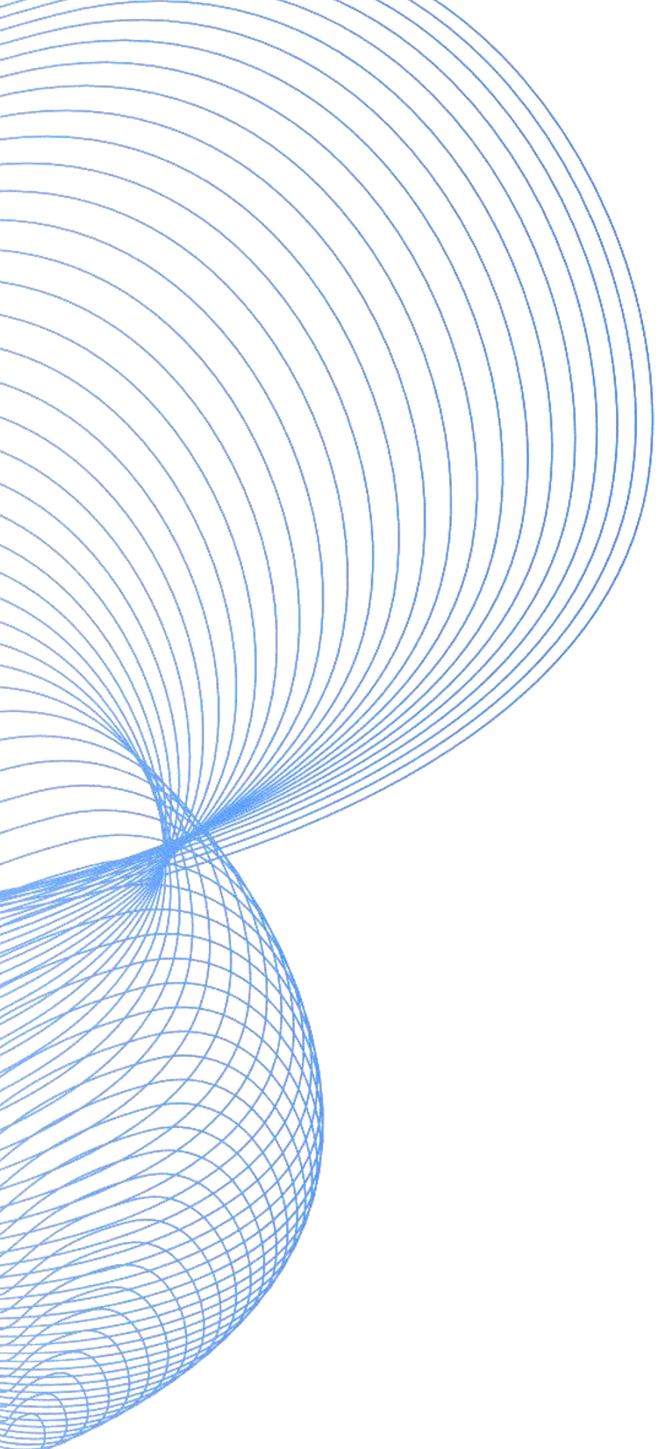
scriptix

JET STREAM





MAKE CONTENT ACCESSIBLE TO EVERYBODY.

PROBLEMS

- Content volumes grow exponentially.
- All that content needs to be accessible.
- Data privacy in AI is a growing concern.

SOME FACTS

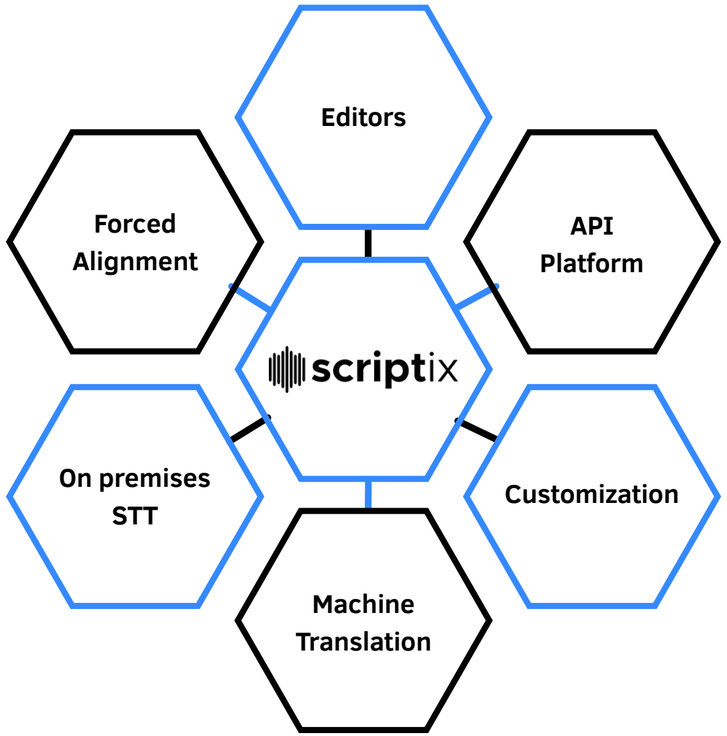
- **5%** of the world's population is deaf or hard of hearing, that's **466** million people.
- **>80%** of online content is consumed without sound.
- **12%** more view time of video ads can be achieved by adding captions.
- **WCAG** standard will soon apply to both public and private sector.

WHAT WE DO

- Automatically subtitle, transcribe and translate in 35 languages.
- Batch and real-time processing.
- Transparent pay-as-you-go pricing.
- Data used for training models only after opt-in.
- Data processing only on EU cloud.

USE CASES

- **GetyourStudio**
  - Subtitling and translation for corporate communication.
- **The Supreme Court of the Philippines**
  - Subtitling for WebTV and alleviating stenographer's workload.
- **Roularta Media Group**
  - Helping journalists and subtitlers save time.
- **JuneFirst**
  - Automate subtitle process, save time and speed-up delivery for companies such as: Disney+, Prime and Viaplay.



PLATFORM NOW

- STT, Translation, Editors, Cloud or Hosted.
- Customization services.
- API-docs to integrate Scriptix in your workflow.

***Gartner** on STT: "Pick a solution that can meet the needs of your industry, one that supports customization and features that can serve multiple use cases."*
